Nationals Park
Washington, DC

Sponsors:

District Department of Transportation
Office of Planning
District Department of the Environment
Office of the Deputy Mayor for Planning and Economic Development

d.

DISTRICT DEPARTMENT OF TRANSPORTATION

Welcome

Anacostia Riverwalk

Thank you for participating in the 2nd Anacostia Waterfront Community Information Fair. We hope you leave today more informed and more enthusiastic about investments being made to improve the waterfront and your community.

The waterfront landscape is changing every day and significant enhancements are on the horizon. For example, replacement of the 11th Street Bridges will begin by summer 2009, easing travel on one of the busiest bridges spanning the waterfront. When construction is completed, local traffic will be separated from commuter traffic and the new bridges will accommodate pedestrians, bicyclists and transit.

Moving forward will take more than bricks, mortar and asphalt. Listening to and collaborating with citizens like you across the city is an essential ingredient to creating a world class Anacostia waterfront, a waterfront where both sides of the river prosper from more options for housing, work and recreation, while preserving a rich cultural heritage.

So we will continue to keep you informed and involved in the transformation of the entire Anacostia waterfront through community meetings, forums, newsletters, articles, and eblasts. You also can get waterfront updates by visiting our website, www.theanacostiawaterfront.com.

Now enjoy the fair!

2nd Anacostia Waterfront Community Information Fair

**November 15, 2008
Nationals Park**

nOtes

A sheet of white notebook paper with 25 horizontal blue lines. The lines are evenly spaced and extend across the width of the page. At the bottom of the page, there is a light blue gradient that starts from the left edge and tapers towards the right, creating a decorative footer area.

Vision

FOR A 21ST CENTURY WASHINGTON WATERFRONT

Key Themes for Developing a Green and Sustainable Anacostia Waterfront

Environment: Restoring a clean and active river

Transportation: Gaining access to, along and across the Anacostia River

Parks: Creating a great riverfront park system

Destinations: Creating cultural destinations and places of distinct character

Neighborhoods: Building and sustaining strong waterfront neighborhoods
